

The easy* choice for your patients using AID systems.

Easy*, integrated experience

- Single-app setup with our compatible AID partners
- No sensor coding required

Comfortable sensor wear and easy to apply¹

- The world's smallest, thinnest^{†2} 15-day sensor, and no overpatch required.
- Proven sensors survival rate⁴

Performance your patients can count on

- Sensors deliver minute-to-minute glucose readings that are 5x faster than other CGMs^{‡3}
- Strong low-end accuracy⁴

AID=automated insulin delivery.

The FreeStyle Libre 3 system includes the Libre 3 Plus sensor, Libre 3 sensor, Libre 3 app, Libre app, and the Libre 3 reader.

FreeStyle Libre 3 Plus sensor is indicated for use in people with diabetes age 2 and older.

* Based on sensor features including up to 15-day wear period, automatic readings every minute, accuracy data, and single-app setup with AID systems. † Among patient-applied sensors. ‡ Processing intervals differ by pump, please check pump's user manual for reference.

Important Safety Information

Failure to use FreeStyle Libre systems as instructed in labeling may result in missing a severe low or high glucose event and/or making a treatment decision, resulting in injury. If glucose reading and alarms (if enabled) do not match symptoms or expectations, use a fingerstick value from a blood glucose meter for treatment decisions. Get medical attention when appropriate. Abbott Customer Service at 855-632-8658 or visit <https://www.FreeStyleProvider.abbott/us-en/safety-information.html> for safety info.
