

Dedicated support and affordable care

Free access to certified diabetes care and education specialists.

More people pay \$0-\$20 for Libre than for Dexcom*1.

Visit LibreSavings.com to see if you qualify for co-pay assistance.†

Dedicated customer care, 7 days a week – Call 1-855-632-8658

For more information about mobile device compatibility, see compatibility guide at <https://www.FreeStyle.abbott/us-en/support.html>

Abbott provides this information as a courtesy and does not guarantee payment or coverage. Coverage and out-of-pocket costs may vary based on your individual insurance plan. Please contact your insurance provider directly to confirm your specific benefits and eligibility.

* Based on pharmacy claims for the aggregate of patients covered by Commercial insurance, Managed Medicare, Managed Medicaid using the FreeStyle Libre personal CGM systems versus Dexcom CGM systems. Does not include fee-for-service Medicare or fee-for-service Medicaid. The actual cost to patients may or may not be lower than other CGM systems, depending on the amount covered by insurance, if any. † Benefits apply to FreeStyle Libre 3 Plus sensors and FreeStyle Libre 3 readers. Void where prohibited by law. Abbott may modify, rescind, or revoke these benefits at any time without notice. Offer available to commercially insured and uninsured patients only. These benefits are not available to beneficiaries of Medicare, Medicaid or other federal or state healthcare programs. For Massachusetts residents, only those patients responsible for the full cost of the product may be eligible to receive these benefits. These benefits are only available at participating pharmacies, which are subject to change without notice. The actual amount a patient pays may vary.

Why parents choose FreeStyle Libre 3 Plus Sensor for their kids ^{||}

The world's smallest*¹ sensor

Doesn't require an over patch—comfortable, discreet¹, water resistant[†] and easy to wear².

Libre Plus CGMs are the first and only¹ 15-day sensors approved for kids age 2 and older^{3,4}

Longer wear means fewer insertions, less hassle, and less stress.

Accurate minute to minute readings, 5x faster than other CGMs⁵

Remote monitoring with LibreLinkUp app[§]

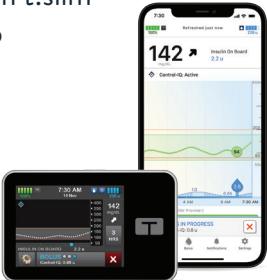

Track your child's glucose anytime[‡], anywhere[†] with the LibreLinkUp app—whether they're at school or at play.

^{||} FreeStyle Libre 2 Plus sensor and 3 Plus sensor are indicated for use in people with diabetes age 2 and older. * Among patient-applied sensors. [§] Check the Support section of <http://www.librelinkup.com> for information about mobile device and operating system compatibility. LibreLinkUp is not intended to be used for dosing decisions or to replace self-monitoring practices as advised by a physician and requires registration with LibreView. [‡] 60-minute warm-up required when starting the sensor. [†] Sensor is water-resistant in up to 1 meter (3 feet) of water. Do not immerse longer than 30 minutes.
